Dear Jimmy,

I don't know if this letter will be forwarded to you or not but I hope it will. We done the tapes and we received the 2nd one yesterday. You do a wonderful description of your trips and your delicious meals. Dad has been recording a tape to send to you when you get back, altho there isn't anything interesting going on here, just every day routines.

I hope you are getting along fine on the ship and aren't bothered with sea-sickness. The war project you are involved in is certainly something to hear about. I hope you won't be on any long range projects.

Mike spends the weekends here and will be here the whole month of Oct. then the Nov. election. It looks as tho he is a cinch to win. He doesn't want Mary to move back here so I don't know how that will turn out. The neighborhood there is wonderful for Diane and it is too bad they have to give up their house.

I hope Carolyn will get over Tom and her trip to London and new job and a boy friend will help. I wrote to Dickie yesterday and am so glad she will be meeting you in Greece. You are very special.

Love, Mom.
